### **DETAILED ACTION**

1. Pre-amendment filed on October 16, 2003 has been entered.
2. Claims 1-4 are presented for examination.

### ***Information Disclosure Statement***

3. This office acknowledges receipt of the following items from the Applicant:  
Information Disclosure Statement (IDS) filed on October 16, 2003.
4. Information disclosed and list on PTO 1449 was considered.

### ***Priority***

5. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/085,173, filed on 05/28/1998.

### ***Reasons for Allowance***

6. Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-4 include allowable subject matter since the prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Chevallier et al. (U.S. Patent No. 5,835,406), and others, does not teach the claimed invention having a method of operating the electrically alterable non-volatile multi-level memory device has a reading status and wherein an operation of reading status of the one non-volatile multi-level memory cell, comprises comparing the

status read out from the one non-volatile multi-level memory cell with the first reference level to discriminate whether the status corresponds to a first group of the first and second level states or a second group of the third and fourth level states, if a result of comparing the status indicates that the status corresponds to the first group, further comparing the status read out from the one non-volatile multi-level memory cell with the second reference level to discriminate whether the status corresponds to the first level state or second level states, and if a result of comparing the status indicates that the status corresponds to the second group, further comparing the status read out from the one non-volatile multi-level memory cell with the third reference level to discriminate whether the status corresponds to the third level state or fourth level states.
